

Genuine Subaru Performance Parts

Make your heart race with Genuine Subaru Performance Parts

If you're looking for excitement, you've come to the right catalog! Inside you'll find all the new ways to enhance the performance, endurance and appearance of your Subaru. These Genuine Subaru Performance Parts are all custom engineered to fit your specific vehicle. Which means you can customize, without compromising the integrity of your Subaru. Now, that's exciting.

About performance parts.

Developed under the umbrella of the "total tuning" concept, STI Performance Parts are created in close cooperation with the development team of STI (Subaru Tecnica International), a 100% wholly owned subsidiary of Fuji Heavy Industries Ltd. (FHI). Unlike generic performance parts, STI Performance Parts reflect the synergy of STI and FHI, working together to take performance to a new level. Real time performance parts data gleaned from the WRC has been fed back to the STI development group, which uses this knowledge to produce high quality products designed specifically for the unique power train requirements of the Subaru.

Parts not marked with asterisk(s) are covered by the Limited Warranty for Genuine Subaru Replacement Parts and Accessories. See dealer for complete warranty details.

* Parts with one asterisk are covered by the Parts Only Limited Warranty for Select Genuine Subaru Performance Parts (Labor Excluded).

Parts intended for off-highway application only. May bring vehicle out of compliance with safety/emissions standards. Can only be lawfully installed by end user. See dealer for complete warranty details.

** Parts with 2 asterisks sold "as is" without any warranty coverage. Intended for off-highway application only. May bring vehicle out of compliance with safety/emissions standards. Can only be lawfully installed by end user. See dealer for complete warranty details.

High Flow Air Intake

The SPT High Flow Air Intake is constructed of 319 diecast aluminum, manufactured to ensure the smoothest high flowing bends. Each system includes a silicone-reinforced boot, anti-vibration mounting system, stainless steel t-bolt clamps, and a SPT 4-layer cotton gauze filter with a built in velocity stack for smooth air flow. The intake is coated in new gunmetal gray-textured powder-coat finish. Professionally dyno tested and when combined with the SPT Heat Shield and SPT Performance Exhaust System, produces up to 30hp and 20 lb-ft of torque on a stock 2007 STI, up to 10hp and 17 lb-ft of torque on a stock 2007 WRX, and up to 30hp and 30lb-ft of torque on a stock 2007 Legacy GT Sedan when measured at the wheel. Installation of High Flow Air Intake System will result in increased turbocharger and diverter valve air flow sounds during operations. This condition is indicative of normal operation.

Heat Shield

The SPT Heat Shield helps ensure that the SPT Intake is able to supply the engine with cool air, which reduces the loss of power that comes from a heated intake charge. Cooler air is drawn from inside the passenger front wheel well and behind the headlight - not from the hotter areas surrounding the turbocharger, engine and radiator. Unlike a traditional cold-air intake, which places the filter element as low as possible in the vehicle, this setup helps to supply cool air, limiting the risks of water ingestion.

STI Performance Suspension Components^{†*}

Adjustable Struts and Springs:

Inverted strut and spring design with variable height adjustment. Includes a 4-position strut dampening adjustment on front and rear struts. Strut diameter is increased from 22mm to 39mm on 2.5RS and WRX (equal diameter on the STI model). Springs initially lower body approximately 10mm on 2.5RS and WRX, 20mm on STI model, and may be adjusted an additional 30mm.

STI Inverted Adjustable Struts and Springs^{†*}

Inverted strut and fixed spring design lowers the vehicle approximately 15mm. Front spring stiffness is increased 35% over stock, and 30% over stock on the rear springs. Front and rear struts include a 4-position strut dampening adjustment which may be adjusted to the dampening force of a stock WRX, to harder than a stock STI suspension. Struts are designed exclusively for the 2005-2007 Impreza WRX STI models.

SPT Performance Strut Set^{*}

Adjustable damping allows struts to be dialed in to match anticipated driving conditions. Fast on-car adjustment on each strut changes rebound and compression settings from street to rally or track. Patented check valve minimizes hydraulic fluid foaming to help keep shock performance fade-free. Front struts have 4 stages of adjustment. Rear struts have 8 stages of adjustment. Manufactured for Subaru of America by KYB®.

SPT Performance Spring Set*

Performance Spring Set lowers the 2.5RS stance approximately 3/4", and WRX Sedan 1.4" front, 1.2" rear, resulting in a lower center of gravity, which improves handling performance and vehicle responsiveness. A lower center of gravity helps reduce squat during acceleration, body roll when cornering and excessive nose-dive under braking. Kit includes 2 front and 2 rear suspension springs.

Impreza WRX STI Performance Clutches

Clutch Disc – Organic 7.7MM**

Organic friction material provides higher torque and temperature capabilities than stock disc. Some clutch judder may result when clutch is partially engaged. Use only with clutch cover ST302104S000.

Impreza WRX STI (2004-2007): **ST301004S020 (6 M/T)**

Clutch Cover – Organic 7.7MM**

Heavy-duty cover allows for a more efficient transfer of engine power. For use with the 240mm diameter clutch disc ST301004S020. Exerts pressure of 1,150 kgf (2,535 lbf).

Impreza WRX STI (2004-2007): **ST302104S000 (6 M/T)**

Clutch Disc – Ceramic Metal 5MM**

Ceramic/metal friction material with higher temperature range and friction coefficient is recommended for competition or off-road use. Clutch judder will be experienced when clutch is half engaged. Use only with clutch cover ST302104S010.

Impreza WRX STI (2004-2007): **ST301004S000 (6 M/T)**

Clutch Cover – Ceramic Metal 5MM**

Heavy-duty cover allows for a more efficient transfer of engine power. Recommended for competition or off-road use. For use with the 240mm diameter metallic clutch disc ST301004S000. Exerts a pressure of 1,150 kgf (2,535 lbf).

Impreza WRX STI (2004-2007): **ST302104S010 (6 M/T)**

Lightweight Flywheel**

(7.2 kg or 15.8 lbs. vs. stock flywheel weight of 8.6 kg or 18.9 lbs.) Machined from high strength chromium molybdenum. Reduced rotating mass of the lighter flywheel allows engine to rev faster. Recommended when replacing stock clutch cover and disc with the STI clutch cover and disc sets.

Impreza WRX STI (2004-2007): **ST123104S000 (6 M/T)**

Impreza WRX Performance Clutches

Lightweight Flywheel**

(5.5 kg or 12.1 lbs. vs. 10.5 kg or 23.15 lbs.)
Flywheel is machined from high strength chromium molybdenum. Reduced rotating mass of the lighter flywheel allows engine to rev faster. Recommended when replacing stock clutch cover and disc with the STI clutch cover and disc clutch sets.

Impreza WRX (2002-2005): **ST1231055010 (5 M/T)**

Clutch Disc – 5MM Ceramic/Metallic (W. Damper)**

Ceramic/metal friction material – Recommended for competition or off-road use. Clutch judder will be experienced when clutch is half-engaged. Use only with clutch cover ST3021055000.

Impreza WRX (2002-2005): **ST3010055120**

Clutch Cover 5MM (for Ceramic/Metallic Clutch Disc)**

Heavy-duty cover allows for a more efficient transfer of engine power. Recommended for competition or off-road use. For use with the 230mm diameter metallic clutch disc ST3010055120. Exerts a pressure of 1,050 kgf (2,315 lbf).

Impreza WRX (2002-2005): **ST3021055000**

Clutch Disc – Organic 8MM**

Organic friction material provides higher torque and temperature capabilities than stock disc. Some clutch judder may result when clutch is partially engaged. Use only with clutch cover ST3021055010.

Impreza WRX (2002-2005): **ST3010055100**

Clutch Cover – 8MM (for Organic Clutch Disc)**

Heavy-duty cover allows for a more efficient transfer of engine power. For use with the 230mm diameter organic clutch disc ST3010055100. Exerts a pressure of 1,050 kgf (2,315 lbf).

Impreza WRX (2002-2005): **ST3021055010**
